

Zon's Sonus Classic Bass Features Traditional Styling And Modern Impact

REDWOOD CITY, CA - January 15, 2004 (For Immediate Release) - Capturing a retro vibe in a modern, handcrafted instrument, Zon's Sonus Classic is designed as a contemporary classic for players who want a commanding rock and roll look and a strong, versatile sound. Key to the Sonus Classic's responsiveness and sonic personality are its extra-thick ash body and bolt-on composite neck, which combine to produce a focused tone with solid lows, growly midrange, and bright highs.

A pair of specially designed Seymour Duncan Custom Shop narrow-aperture dual-coil pickups and Aguilar active electronics with 2-band EQ bring out the Sonus Classic's expressive, flexible voice. Design elements such as a contoured pickguard, a metal control plate, and comfortable neck profile contribute to the Sonus Classic's distinctive looks and playability.

The Sonus Classic bass is available from all Zon Guitars dealers worldwide.
